### PRODUCTS AND SERVICES

#### Rental Solutions

Basin Power Solutions provides reliable and cost-effective power through our wide range of generator rental solutions. We offer both natural gas and diesel generator technologies. All our generators are equipped with state-of-the-art satellite monitoring technology to aid in immediate maintenance requirements.

#### New & Used Generator Sales

Basin Power Solutions is a leader in the sale of diesel and natural gas generator sets for mission critical applications.

#### Service & Maintenance

Our goal is to provide the best customer service in the industry. Basin Power Solutions provides technical assistance 7 days a week, 24 hours a day. Our technicians are trained extensively in monitoring, operating, and repairing our equipment to ensure efficient and reliable power solutions for any challenge. You can depend on us for hassle-free servicing before, during, and after deployment. Proper maintenance and servicing minimizes exposure to on-site risks.
