

# Prepare. Recover. Restore. Emergency Response Solutions

---

While it is impossible to predict the future with certainty or prepare for every eventuality, emergencies happen; and when a crisis occurs, response time is critical. With Global Guardian, clients access a professional network of emergency response resources that can be dispatched with the push of a button.

## **EXPERTS IN RESTORATION AND RECOVERY**

While natural disasters can wreak havoc and devastate entire communities - restoration and recovery does not have to be chaotic. Global Guardian's team of security personnel specialize in emergency response, disaster relief, recovery and restoration. Our team's comprehensive resources can support your organization starting with site assessments to delivering relief supplies.

## **DISASTER RESPONSE: URGENCY MATTERS**

A fast and efficient response can not only reduce damage, but reduce cost. Ensure your organization is prepared in the event disaster strikes.

### GLOBAL LEADERS IN COMPREHENSIVE SECURITY & EMERGENCY RESPONSE

Global Guardian provides comprehensive security solutions to both families and organizations throughout the world. Headquartered in Washington D.C., Global Guardian's 24/7 Operations Center identifies, monitors, and responds to threats and emergencies with on-the-ground teams in over 100 countries. Comprised of professionals with backgrounds in military operations, special forces, intelligence, and federal law enforcement personnel– our team has operated in crisis before and knows how to respond.

### EMERGENCY RESPONSE IN MINUTES & HOURS

Global Guardian provides clients with a full suite of emergency response solutions and delivers them 24 hours a day under the close guidance of the Operations Center staffed with highly experienced security professionals – responding in minutes and hours.

### SECURITY SOLUTIONS

**Security Agents** – With one phone call to the 24/7 Operations Center, dedicated armed or unarmed agents can be deployed on the ground to secure your site immediately. Prevent theft and ensure a safe environment for all recovery efforts with professional physical security.

**Medical Support** – Arrange for on-site medical professionals to support your team or utilize telemedical support resources with Global Guardian's board certified physicians.

**Emergency Aviation** – Our aviation services provide immediate transportation to emergency and non-emergency situations in locations around the world, resulting in safe evacuation and transport of assets and personnel to secure locations and medical facilities.

**Emergency Power & Generators** – When critical power is lost, temporary power needs can be supplied in short order. Global Guardian can deploy and transport equipment at a moment's notice and will stabilize any emergency situation to get systems back up and running.

**Cargo & Heavy Lift** – Our aviation team is able to coordinate transport for large assets, including cargo and other heavy-lift payloads. We can arrange tailored aviation services to provide cost-effective transport that fits any timeline.

**Emergency Communication Systems** – Crucial communication centers can be built to ensure effective communication while powerlines and electricity sources are being restored.

**Drone Site Assessments** – Initial site assessments are crucial to informing the recovery process. Leveraging Drone technology, site assessments are produced to inform organizations of any safety challenges and overall damage.

**Relief & Supplies** – Emergency food, equipment, and supply delivery can be arranged with urgency. Our expertise in navigating the international permit process, paired with our access to diverse aircraft options, allows Global Guardian to provide support and relief faster than our competitors.

## How It Works

While natural disasters can wreak havoc and devastate entire communities - restoration and recovery does not have to be chaotic. Our team's comprehensive resources can support your organization starting with damage assessments through complete clean up and recovery.

### CRISIS STRIKES

### GLOBAL GUARDIAN RESPONDS

Global Guardian's 24/7 Operations center will respond in minutes and hours, dispatching assets to secure the area with on-the-ground teams. Depending on the severity of the incident, Global Guardian can provide physical security, medical support, drone site assessments, and build emergency communication stations.

## Pricing Custom to Your Needs

Unique challenges require specialized resources. With Global Guardian, organizations can choose from a variety of solutions custom to specific incident requirements.
